New York, April 24.—The enthusi-New York, April 24.—The enthusi-asm engendered in the stock market yesterday by the more favorable turn in the threatened railroad strike seem-ed to exhaust itself today. Soher con-sideration of the situation eventually convinced the more conservative ele-ment of the speculative community that willingness to arbitrate does not necessarily imply a speedy or absolute adjustment of difficulties. Aside from another advance in cer-

adjustment of difficulties.

Aside from another advance in certain manufactured products by one of the subsidiaries of the United States Steel corporation, there were few developments of importance or even passing interest.

United States Steel was under steady united States Steel was under steady

United States Steel was under steady pressure during today's session and the approach of the quarterly dividend meeting has aroused fresh interest in the statement then to be issued. Estimates of earnings for the quarter range from under \$20,000,000 to aimost \$25,000,000, though the latter figures are generally regarded as extravagant. Anything under \$22,500,000, it is asserted, will fall to meet dividend requirements on the common shares. Union Pacific was another one of the leading stocks to display heaviness at leading stocks to display heaviness, at-though belief is general that March earnings of the Harriman system will earnings of the Harriman system will be favorable. Heading retained its leadership, dealings exceeding those in Steel, but the course of this stock also suggested profit taking. Of all standard issues. New York Central was strongest selling at a new high record for the movement. Indeed, today's best price was the highest of any since May of 1910. the source of strength was not clearly defined.

There were advances in many issues of relative unimportance and in this respect the day's business was unusual. American Cen common attained a new high level with a large total of dealings. The early activity was followed by intermittent advances and declines and in the latter part of the day prices sagged senerally with a heavy close. A feature of the final transactions was Kansas City Southern preferred, in which there was evidence of liquidation. The stock yielded five points, with abrupt declines in Missouri Pacific and International Harvester. Net losses in many cases ran a full point.

Only one neteworthy railway return

Only one noteworthy railway return
for March was issued today, that of
the Lehigh Valley road, which disclosed a nominal decrease in net earn.

The bond market was firm in the early session, but receded later in sympathy with the heaviness in stocks. Total sales, par value, \$2.582,960.
United States government threes advanced 1.8 respectively on call.
